## STARSYS™

Emergency Response Cart (Hazardous Response Cart)

<b>Sales Person:</b>	Jim Reynolds
<b>Facility:</b>	Alpharma Pharmaceuticals, Baltimore, MD
<b>Application:</b>	Microbiology Research Lab
<b>Order Size:</b>	\$4,909.00 list
<b>Date Ordered:</b>	June 2002

Erick Bish, Safety Health and Environmental Manager at Alpharma Pharmaceuticals in Baltimore, MD sought an easy way to organize a response cart.

### Concerns:

- Secure Storage to protect cart loaded with equipment valued at almost \$20,000. Gear includes: 6-12 Respirators, 4 SCBA (Self contained Breathing Apparatus), Decontamination Equipment (to include a pool, sprayers, and hoses), air tanks, and cordless radio communication system.
- Ability to easily access organized equipment for an emergency response to a hazardous spill in the facility.

### Results Desired:

- Cart that is easily organized, secured, and transportable at a moments notice to any point inside or out of the Alpharma facility.
- Cart that is easy-to-clean and will not rust if washed down on a regular basis.

### Commitments:

- Triple wide Starsys cart with Custom Air Tank Holders and appropriate accessories to accommodate the emergency response equipment. Cart has locking cabinet doors, drawers, and side door.

30 People are currently trained to use the Starsys cart for an Emergency Response at Alpharma (10 on each shift).
