

Metro C5 9 Series Short Form Specs

Metro C5 9 Series Controlled Humidity Heated Holding and Proofing Cabinet shall provide closed loop control of BOTH internal cabinet temperature and relative humidity. Actual internal cabinet temperature and relative humidity shall be displayed. The cabinet shall control temperature from 70°F to 200°F and relative humidity from 0% to 95%. The cabinet shall have top mounted controls, digital readouts, a low temperature alarm, a low water sensor, and memory recall. The cabinet will have Temperature Priority, assuring the cabinet temperature set-point is attained before any energy is directed towards humidity or water vapor generation. The cabinet shall have a polymer drip trough that functions as a bumper on the front, back, and four corners. The cabinet shall have (4) 5" swivel donut neoprene casters, (2) with brakes. The cabinet will be powered by two 1950 watt elements, have a ducted air distribution system, and a 4.5 gallon water reservoir. Doors will lift-off and be field reversible. The cabinet shall be 30" wide and 34" deep. The cabinet shall be UL, CUL, and NSF listed.

(Copy cabinet specifics here)

Model Number	Height	Material	Doors (/Pass-Thru Doors)	Slides	Pan Capacity

Accessories to include:

- Small Item Shelf (C5-SHELF)
- Stainless Steel Legs (C5-SSLEGS)
- Universal Slide Pair (C5-USLIDECPR) Qty:
- Right Angle Plug (C5-RTANGPLG)
- Twist Lock Plug (C5-RTWSTPLG)
- Flush Door Latch (C5-LATCHFLUSH)
- Twist Lock Door Latch (C5-LATCWTWST)
- Drain Hose Adapter (C5-HOSEADPT)

Full Height, Stainless Steel
