

Item # _____

Job _____

Basix™ Compact –

Efficient storage space for a confined work place.

Basix™ Compact is constructed from a strong steel alloy to endure the rigors of a daily routine while providing a safe, ergonomic and flexible work area for the user. The Basix line of carts is available in four styles: Basix, Basix Compact, Basix Plus and Basix Plus Compact.

- **Compact** - This cart is ideal for close quarters. The cabinet provides a compact footprint of 18½" x 19¼" (470mm x 489mm).
- **Moveable** - This cabinet comes with 3" (76mm) diameter casters (two with brakes), allowing it to be relocated, or moved when cleaning.
- **Flexible** - User defined configurations can be accommodated by filling an empty cart shell with desired 3", 6" and 9" (76, 152, 229mm) drawer heights.
- **Accessible** – Full-extension drawers provide complete access to supplies. Optional drawer dividers keep supplies neat and organized.
- **Ergonomic** - Polymer top provides a user-friendly work surface. Accessory push handles can be mounted in an ergonomic fashion to allow for easy pushing or pulling of the cart.
- **Accessories** - An array of task support accessories are available for above the work surface or the side of the cart.
