MEDICATION CASSETTE TRANSFER CART

Features:

• Cart can carry as many as twenty-four cassettes at one time, reducing the number of trips required.
• Cassettes are accessible from both sides of the cart.
• A variety of dimensions are offered: single and double widths, three heights: 42", 45" and 48" (1060, 1136 and 1212mm).
• Medication Cassette Transfer Cart was designed to be used in conjunction with the Starsys Unit Dose medication system.

Select:

1. Cart shell type and height.

2. Cassette sizes to fill the selected cart shell*.

3. Bin sizes to fill the selected cassette shells*.

*For cassette and bin selection, refer to Medication Cassette Product Selection Guide (Spec Sheet 45.22).

Metro incorporates several elements in its product design to support a facility’s cleaning protocols:

• Microban® antimicrobial protection helps prevent the growth of stain and odor causing bacteria on the product.
• Advanced polymer and other proprietary finishes provide corrosion resistance
• Smooth rounded corners to allow for easier cleaning

Look for the "red check" symbol for this added protection.
THE STARSYS™ SYSTEM

I. Select a Shell
The medication cassette transfer cart shells are available in single and double wide dimensions. They include epoxy powder-coated center panels which separate the cassettes on the front side from the cassettes on the rear side. All standard shells are non-locking. Locking shells are available upon request. Contact your Metro Representative for details.
